Spis literatury

1. Jeff Doyle, „Routing TCP/IP Volume I (CCIE Professional Development)” wyd. Cisco Press; 1st edition (1998), ISBN: 1578700418
2. Jeff Doyle, Jennifer DeHaven Carroll, „Routing TCP/IP Volume II (CCIE Professional Development), wyd. Cisco Press; 1st edition (2001), ISBN: 1578700892
3. Christian Huitema, „Routing in the Internet (2nd Edition)” wyd. Prentice Hall PTR; 2nd edition (2000), ISBN: 0130226475.
4. Uyles Black, „IP Routing Protocols: RIP, OSPF, BGP, PNNI and Cisco Routing Protocols” wyd. Prentice Hall PTR; 1st edition (2000), ISBN: 0130142484.
5. Tom Thomas, „OSPF Network Design Solutions” wyd. Cisco Press; 2nd edition (2003), ISBN: 1587050323
6. Randy Zhang, Micah Bartell, “BGP Design and Implementation”, ISBN-10: 1587051095, Cisco Press, 2003;
7. Sam Halabi, „Internet Routing Architectures (2nd Edition), The definitive BGP resource” wyd. Cisco Press; 2nd edition (2000), ISBN: 157870233X
8. Bruce Davie, Yakov Rekhter, “MPLS Technology and Applications”, wyd. Morgan Kaufmann Publishers (2000), ISBN 1-55860-656-4.
9. Ivan Pepelnjak, Jim Guichard, “MPLS and VPN Architectures, Vol. 1”, ISBN: 1587050811.
10. Larry Peterson, Bruce Davie, „Computer Networks: A Systems Approach, 3rd Edition” wyd. Hungry Minds, Inc (1998), ASIN: 1558515798.
11. James F. Kurose, Keith W. Ross, Computer Networking : A Top-Down Approach Featuring the Internet (3rd Edition), ISBN: 0321227352.
12. Douglas E. Comer, „Internetworking with TCP/IP Vol.1: Principles, Protocols, and Architecture (4th Edition)” wyd. Prentice Hall; 4th edition (2000), ISBN: 0130183806.
13. Chris Lewis, „CISCO TCP/IP Routing Professional Reference, Revised and Expanded” wyd. McGraw-Hill Osborne Media; Third Edition, 2000, ASIN: 0070411301
14. John T. Moy, „OSPF Anatomy of an Internet Routing Protocol” wyd. Addison-Wesley Pub Co; 1st edition (1998), ISBN: 0201634724

15. Mark A. Miller, „Implementing IPv6” wyd. Hungry Minds, Inc (1998), ASIN: 1558515798.
16. John T. Moy, „OSPF Complete Implementation ” wyd. Addison-Wesley Pub Co (2000), ISBN: 0201309661
17. Charles Perkins, „Mobile IP Design Principles and Practices” wyd. Prentice Hall PTR; 1st edition (1998), ISBN: 0201634694
18. James Solomon, „Mobile IP the Internet Unplugged” wyd. Prentice Hall PTR; 1st edition (1998), ISBN: 0138562466.
19. . D. Wegner, Robert Rockell, „IP Addressing and Subnetting, Including IPv6” wyd. Syngress (1999), ISBN: 1928994016.
20. Thomas Albert Maufer, „IP Fundamentals: What Everyone Needs to Know about Addressing & Routing”, Prentice Hall PTR; 1st edition (1999), ISBN: 0139754830.
21. Andrew Tannenbaum, „Computer Networks, Fourth Edition” wyd. Prentice Hall PTR; 4th edition (2002), ISBN: 0130661023
22. Sanjay Jha, Mahbub Hassan, “Engineering Internet QoS”, wyd. Artech House, ISBN 1-58053-341-8,
23. Mark A. Sportack, „Routing Fundamentals” wyd. Cisco Press, 1999, ISBN: 157870071X.
24. Madjid Nakhjiri, Makhsa Nakhjiri, “AAA and Network Security for Mobile Access: Radius, Diameter, EAP, PKI and IP Mobility”, Wiley, 2005.
25. Mark Grayson, Kevin Shatzkamer, Klaas Wierenga, “Building the Mobile Internet (Networking Technology)”, Cisco Press, 2011.
